

## Advancing our Three-Year Goals

### 1. **Prosperity Goal:** Build a roadmap for an inclusive economy and execute our part of it.

- Produced the Prosperity Strategy, a regional inclusive economic development plan, in collaboration and alignment with key community partners.
- Gained input and created ownership of the economic strategy, engaging 200+ stakeholders across the region.
- Connected to statewide networks by presenting the Prosperity Strategy at the California Economic Summit.

### 2. **Equity Goal:** Build and support the capacity needed for us to work together as one community on tough issues like affordable housing, mobility and growth.

- Put two polls in the field in 2019 – environment and workforce and education.
- Developed a program of work in housing based on data and engagement.
- Released major research reports this year in environment, economic development, workforce and education. Valley Vision research informs, aligns, provokes, and catalyzes action.

### 3. **Environment Goal:** Build investments to reduce carbon emissions and make us resilient.

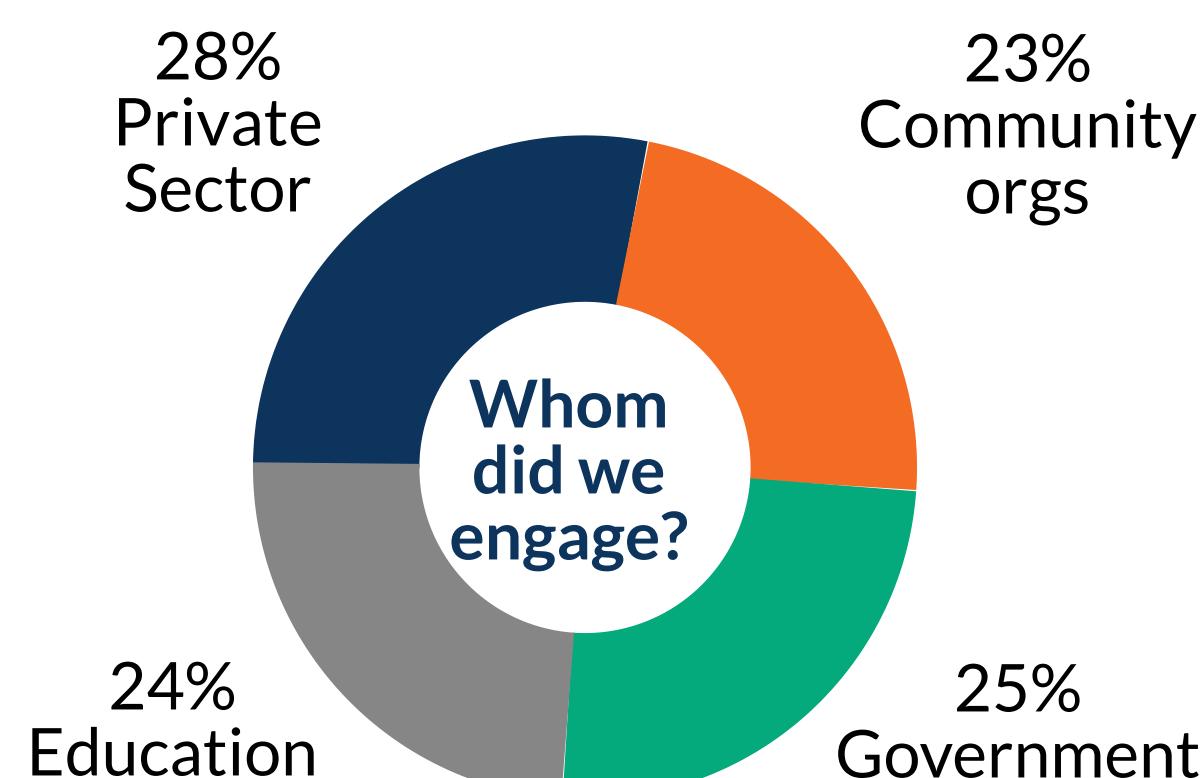

- Used the Environmental Poll to gain significant visibility of regional climate change awareness and concerns.
- Led statewide climate adaptation network, expanding membership and reach in shared action and coordination.
- Grew the capacity and membership of the Cleaner Air Partnership to address air quality - especially related to wildfire smoke in 2019.
- Participated in the Mayors' Climate Commission, driving ambitious strategies for built environment and mobility.

## Highlighted Activities of the Year

### We drove community inspired solutions...

2,000+ stakeholders engaged in Valley Vision events in 2019

...working across community sectors to create durable solutions.

### We took on new challenges...

Supporting educational attainment in the region by sheltering and strengthening Align Capital Region

Supporting emergency preparedness efforts in vulnerable communities across California

...focused on equity and safety in the region and beyond.

### We made our region more prosperous, sustainable, and equitable...

Provided regional leadership by informing and guiding action on Opportunity Zones

Hosted Future Focus, a major regional business summit, in partnership with the regional Workforce Development Boards
