

**MOBILITY  
ZONES**

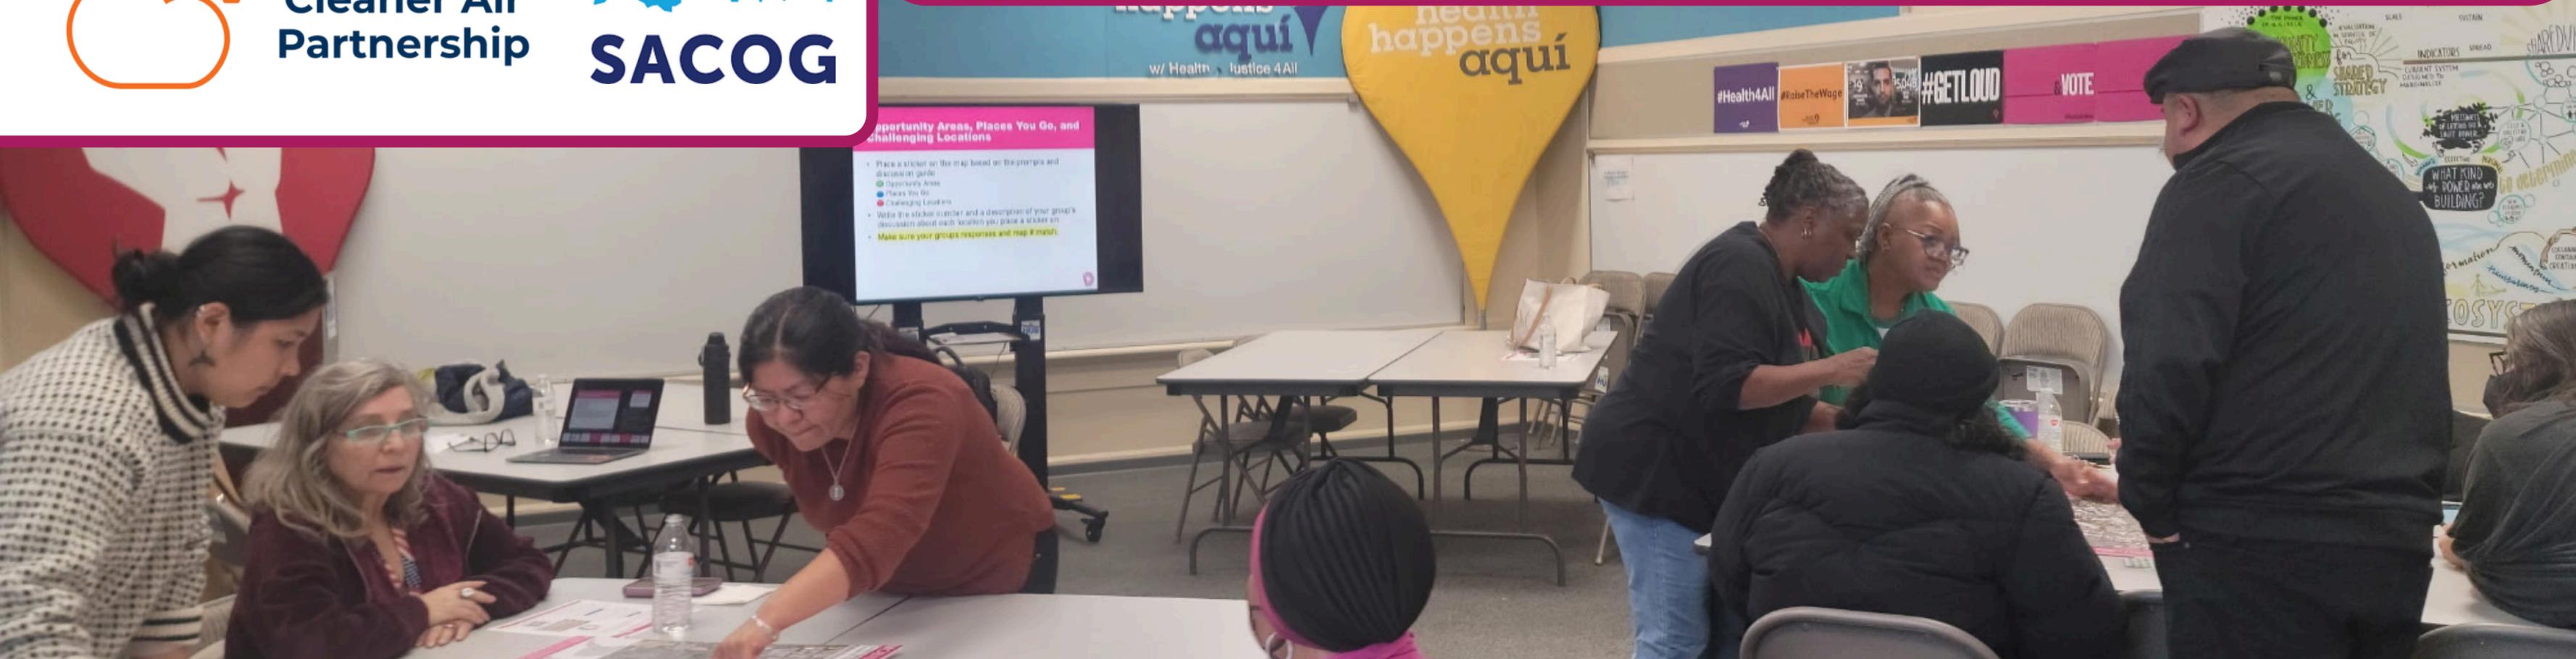

**Cleaner Air  
Partnership**

# Rethinking Mobility

*Learn how we can shape regional transportation priorities through community-informed planning*

**Thursday July 24<sup>th</sup>, 2025  
12:00 - 1:30 PM**

**Robertson Community Center  
3525 Norwood Ave, Sac, CA 95838**

# Rethinking Mobility

CLEANER AIR PARTNERSHIP LUNCHEON | 24 JULY 2025

# Presentation Agenda

- 1. Introduction to the project**
- 2. Benefits to air quality**
- 3. Outreach & co-creation**
- 4. Next Steps**

# Introduction to the Project

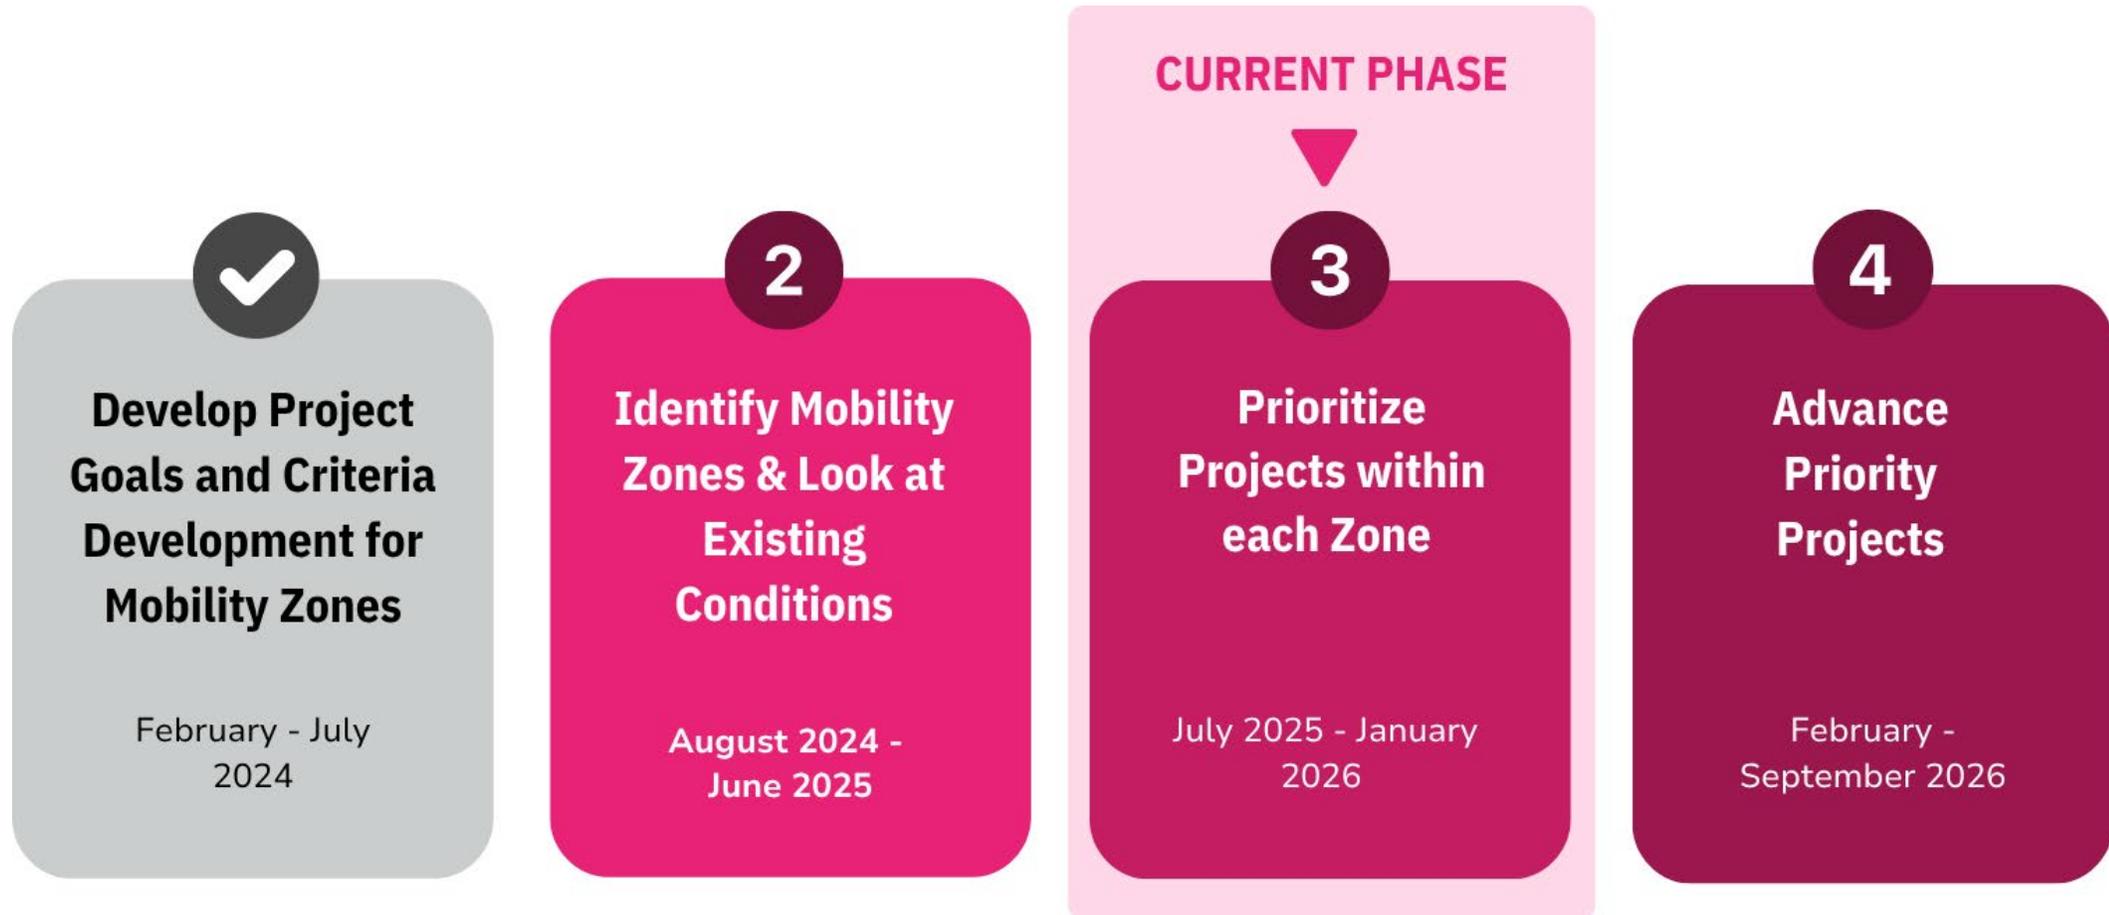

What is Mobility Zones and why is SACOG doing it?

# The idea for Mobility Zones

# Project Overview

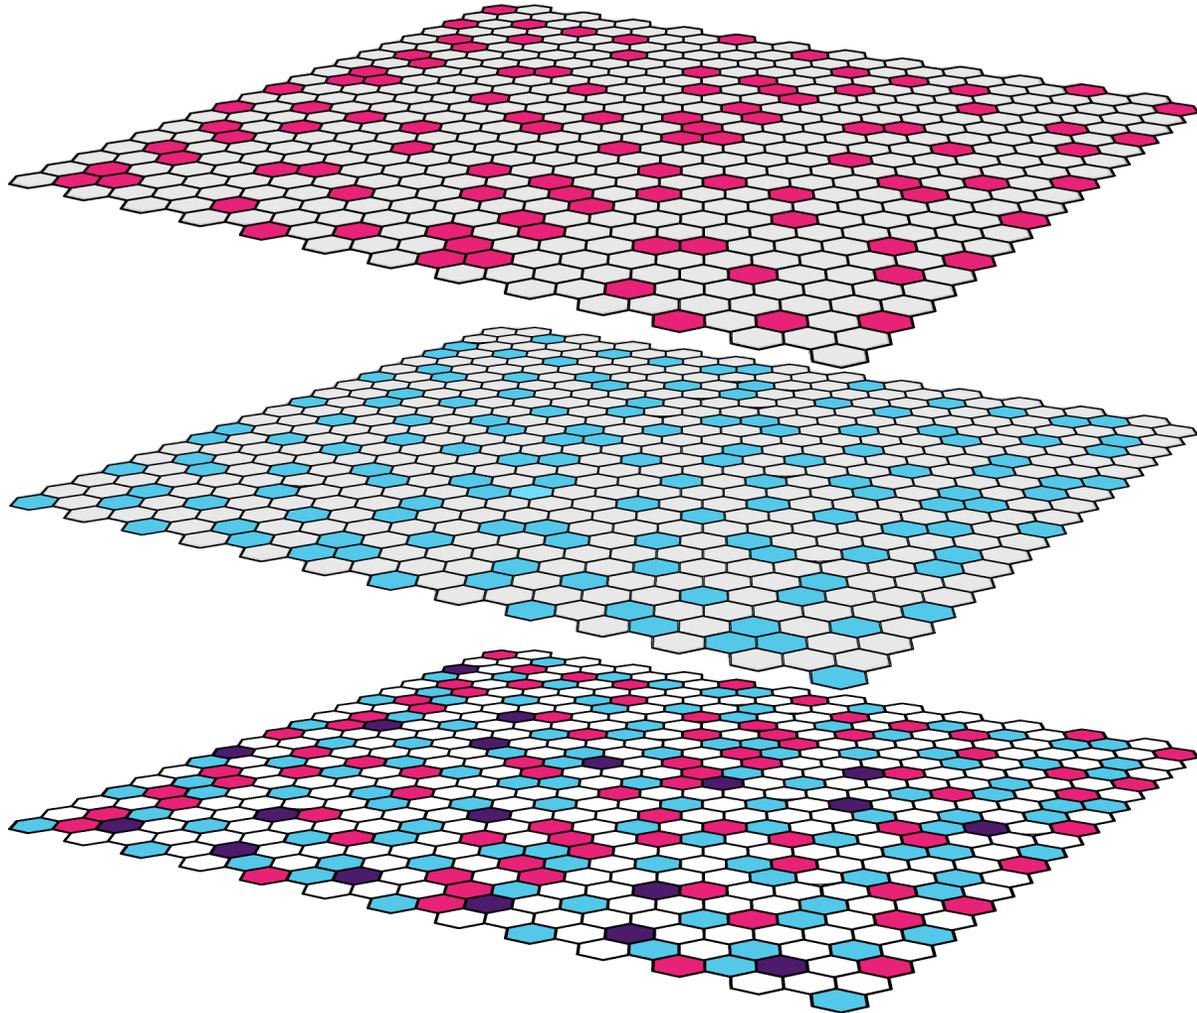

# Identifying the Mobility Zones

Areas with  
equity needs

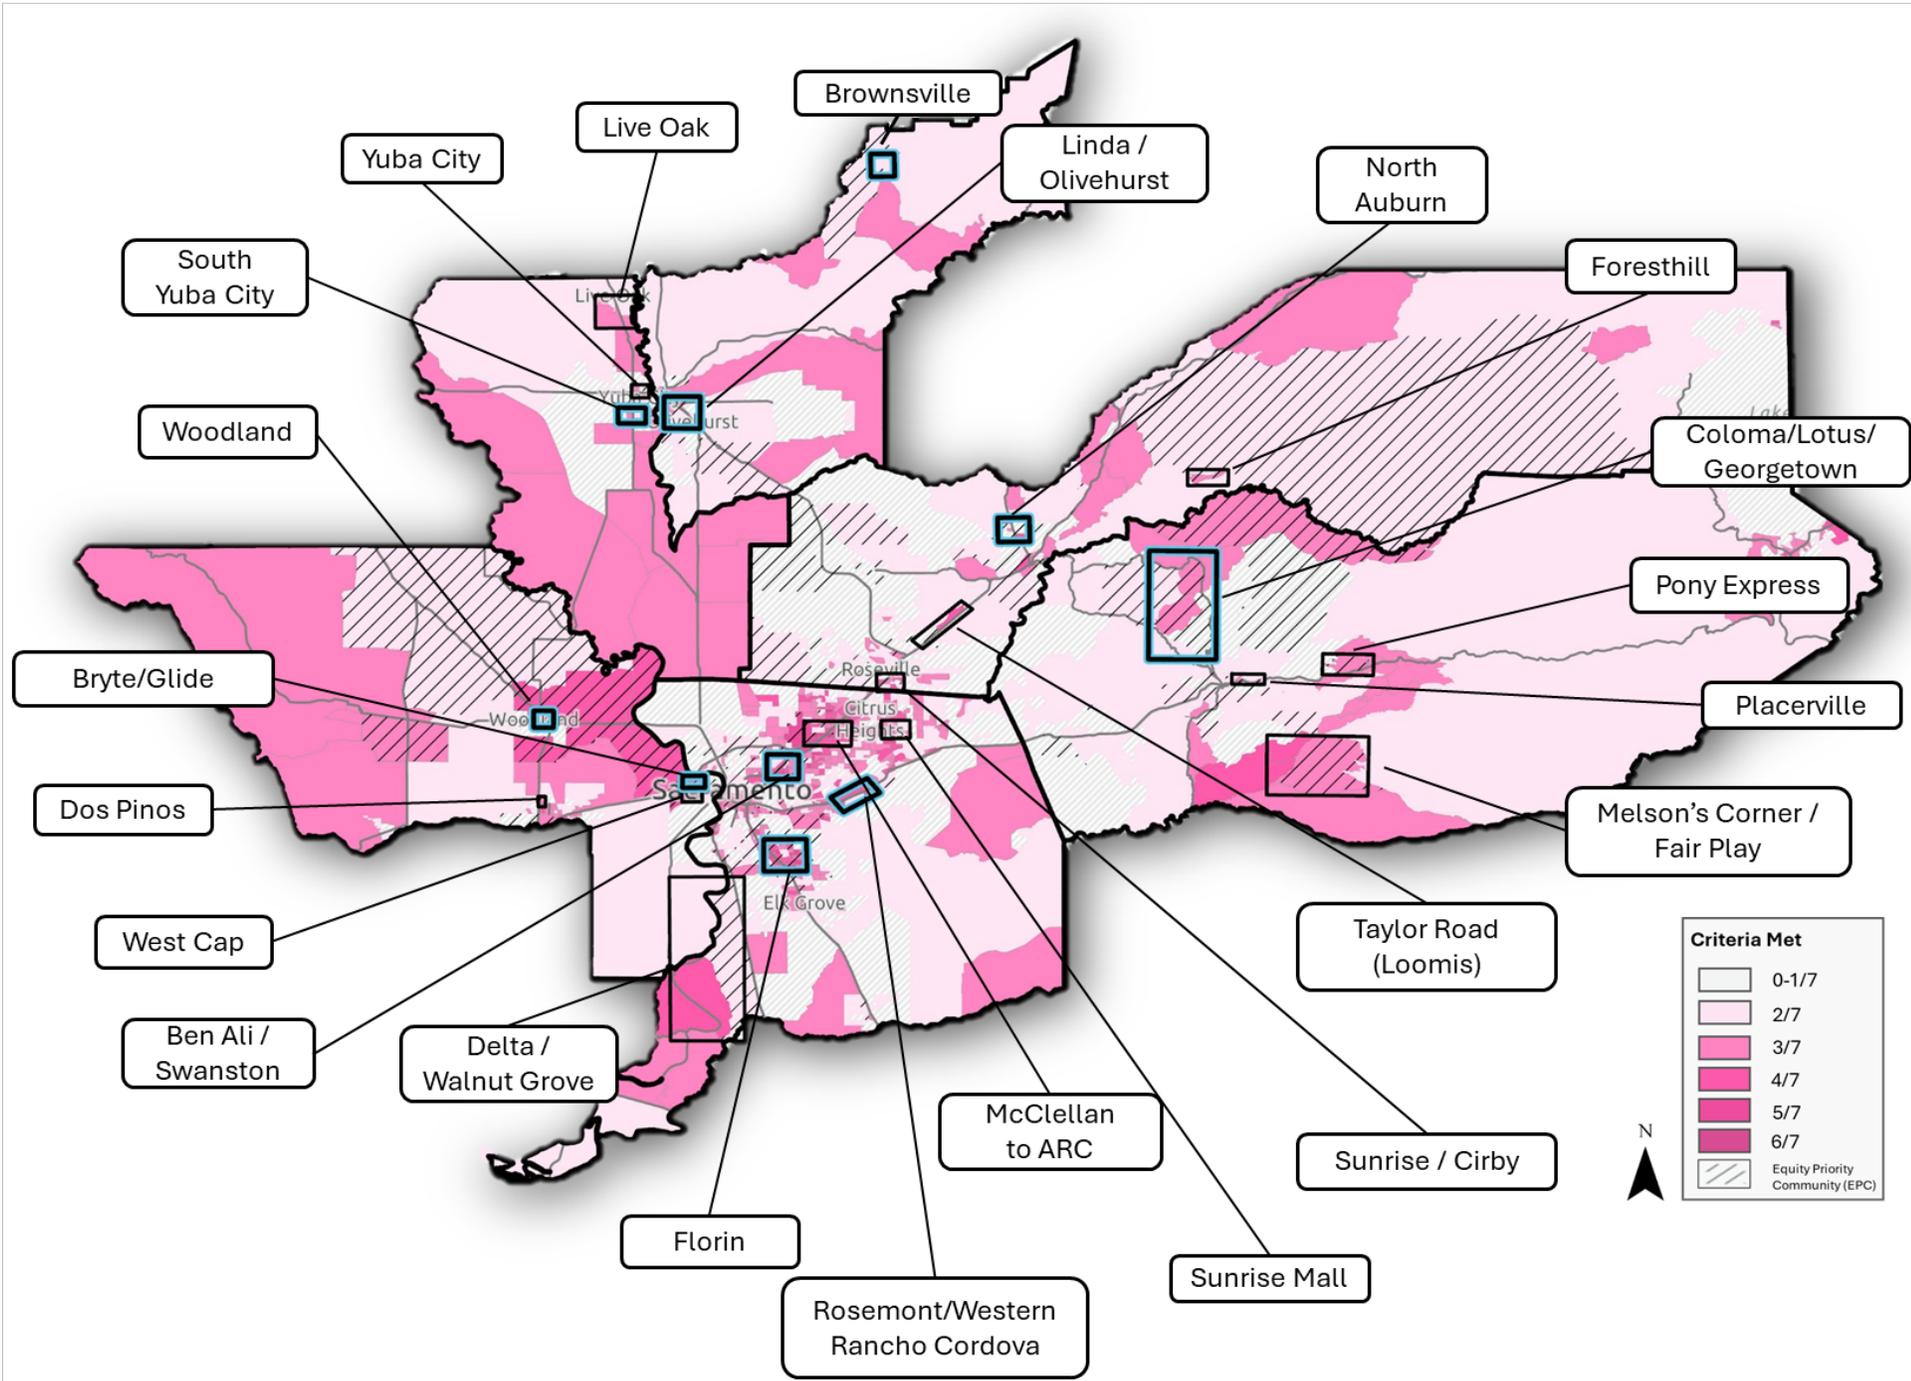

Areas with  
transportation needs and  
opportunities

Areas that could be  
a Mobility Zone

# 23

Phase 1  
Mobility Zones

# Clean Air Benefits

How is Mobility Zones aligned with CAP's mission?

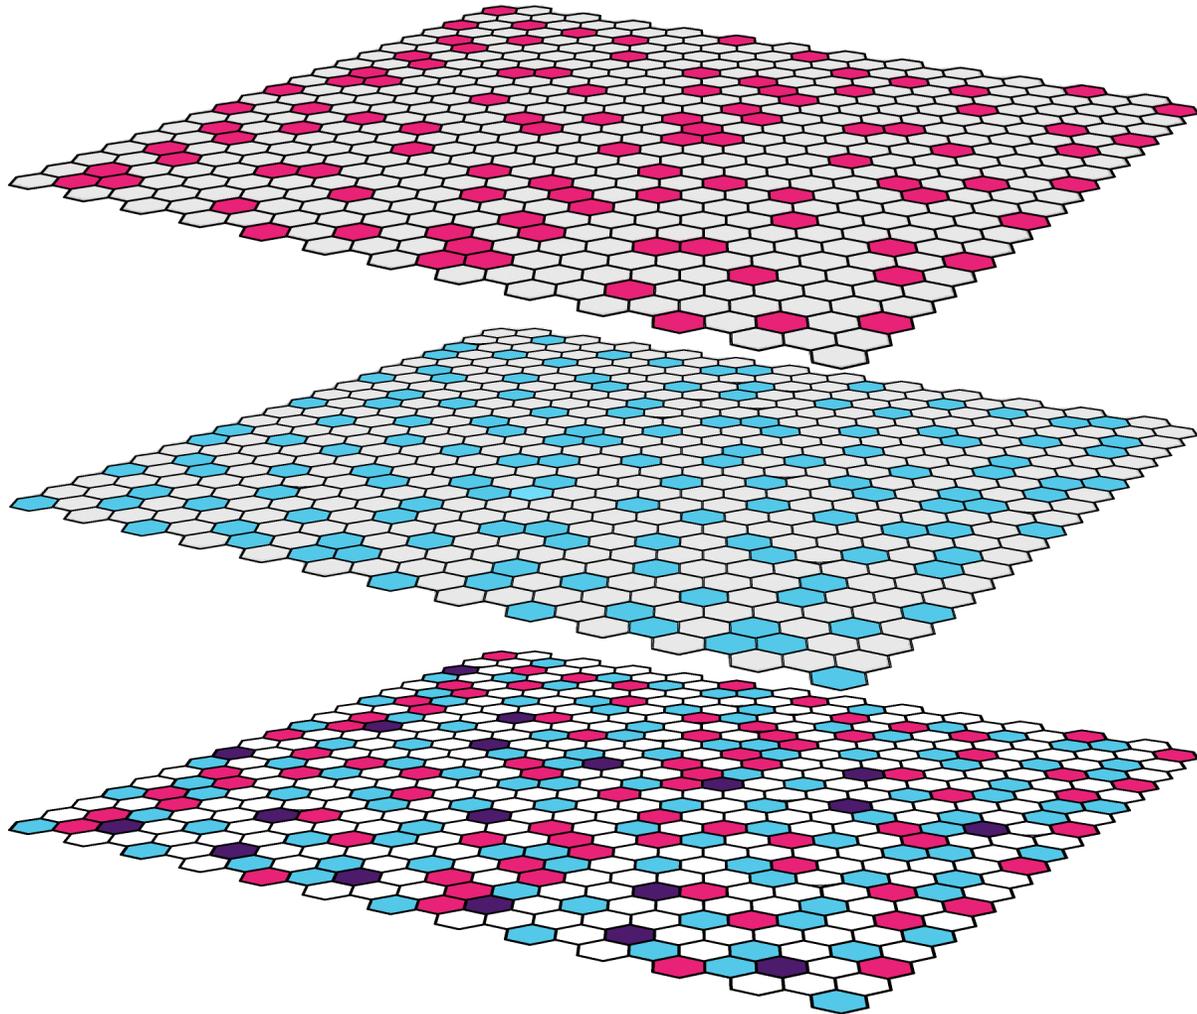

# Highlighting Pollution Disparities

Areas with  
equity needs

Areas with  
transportation needs and  
opportunities

Areas that could be  
a Mobility Zone

# Highlighting Pollution Disparities

Criteria	Sub-Criteria
High Transit Dependency	• % HH with more workers than vehicles available
	• Higher daily trips on transit
Limited Transit Access	• Longer distance to a transit station from BG's population-weighted centroid
	• Rural Transit Access – distance to LRT or a bus stop with >60 min headway
Access to Community Resources	• Higher access to retail/restaurants, parks, community centers and libraries
High pollution burden	• High Percentile for CalEnviroScreen
	• Higher Traffic Congestion Intensity during 4 Slowest Weekday Hours <0.4 by Link
	• Arterial truck volumes are > 1,500 vehicles daily
	• Highway truck volumes are > 3000 vehicles daily
Lack of Safety	• More crash hotspots
	• More bike-ped crash hotspots
Lack of multimodal infrastructure	• Lower National Walkability Index
	• Low sidewalk coverage
	• Lower bike infrastructure coverage
Poor Road Quality	• Pavement condition index is <50 - % of streets within a Block Group

**DIRECT**  
Criteria related  
to air pollution

# Focusing on Pollution-Reducing Projects

## PEDESTRIAN IMPROVEMENTS

**Raised Crosswalk**

## BICYCLE IMPROVEMENTS

**Separated Bike Lane (Class IV)**

## POLICIES AND PROGRAMS

**Mobility Hubs**

## TRANSIT IMPROVEMENTS

**Transit Stop Amenities**

## TRAFFIC CALMING

**Vehicle Diverter**

## POLICIES AND PROGRAMS

**Complete Streets Plans**

# Outreach & Co-Creation

How does Mobility Zones work with communities?

# Mobility Zones' Approach

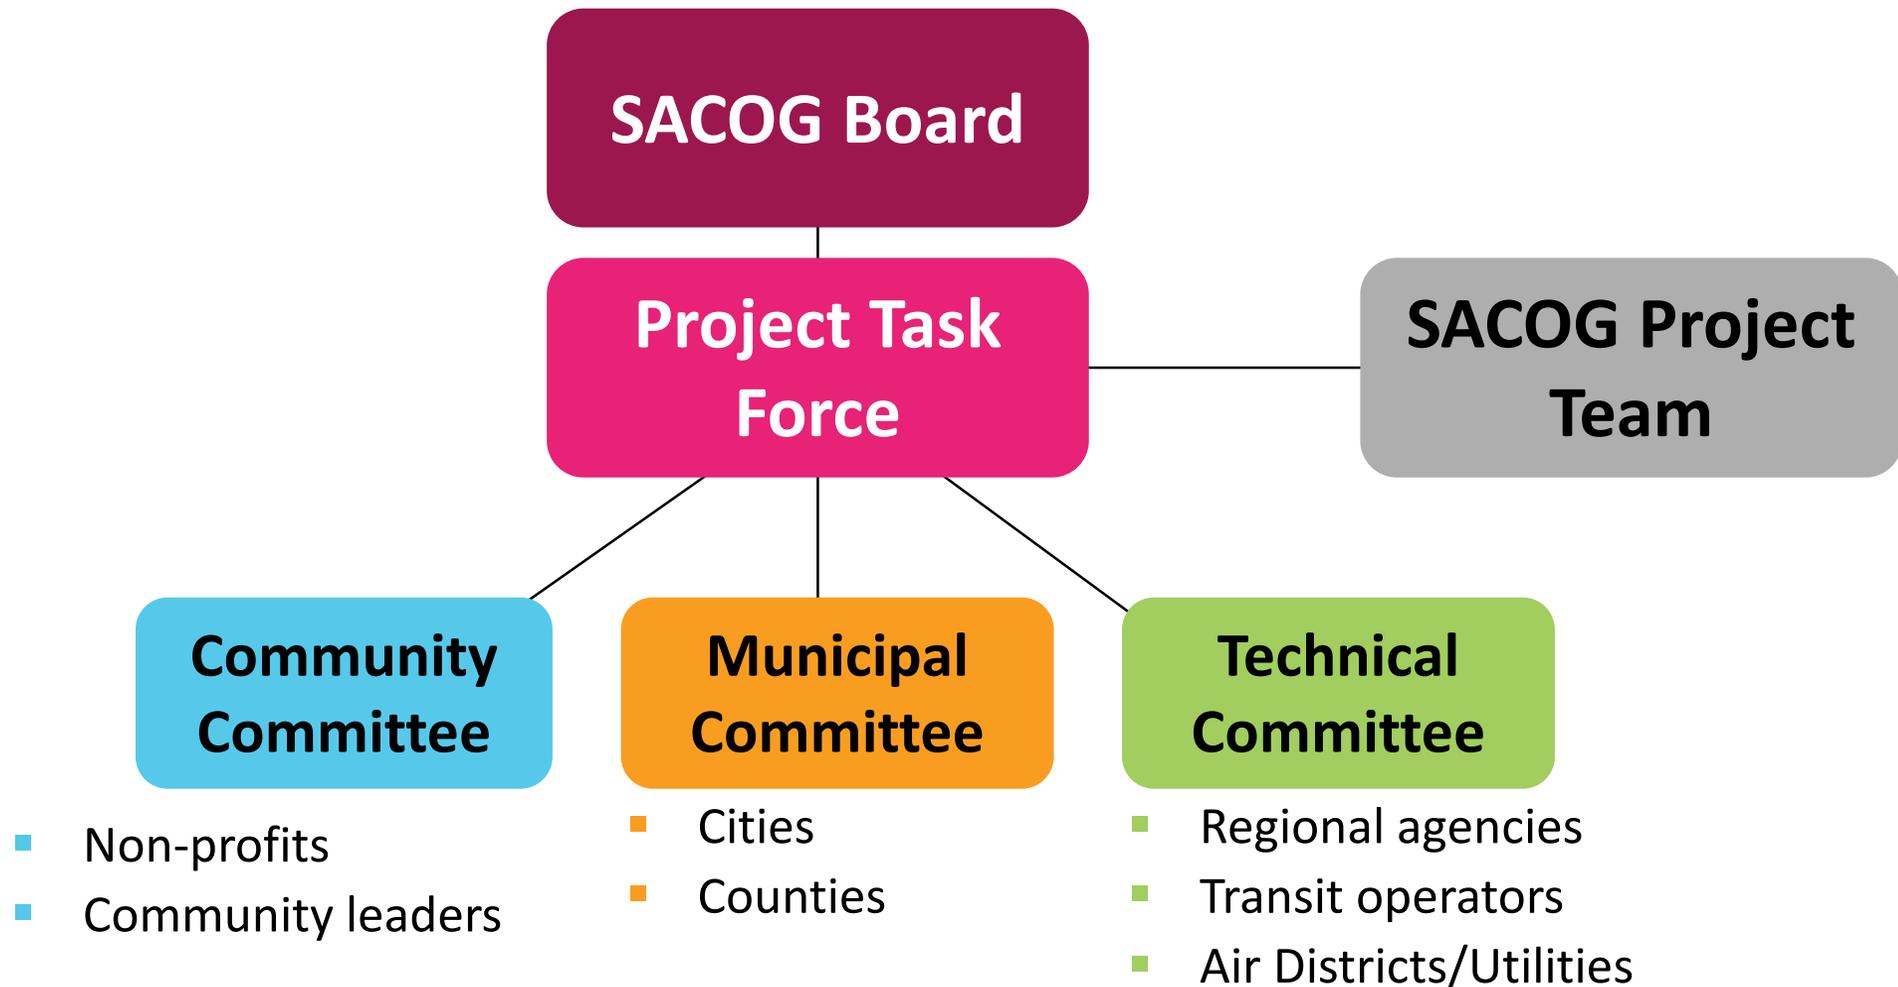

**Bring new voices to the decision-making table**

**Partner with CBOs for more effective engagement**

# Committee Structure

# Community Committee Essentials

## Democratized information

### Sacramento County – Candidate Zone 2: Florin

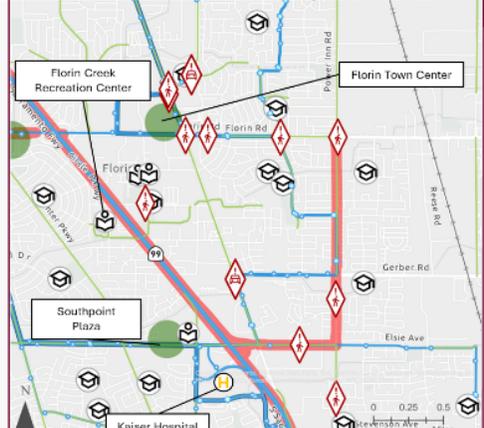

**Community Resources**

- Community Center or Library
- Commercial and Services Hotspot
- Multimodal Infrastructure: Bus Route, Light Rail, Rail, Bike Lane
- Collision Areas: Bike or pedestrian, All collisions
- Congestion: Area of high congestion or heavy truck traffic

**Community Profile**

**Total Population: 72,400**

- 87% People of color
  - 33% Hispanic or Latino
  - 32% Asian
  - 30% Other or two or more races
  - 13% Black or African American
- 44% Low-income households
- Much lower educational attainment
- More households with limited English proficiency
- High air pollution burden

**Key Challenges**

- Physical Barriers:** Wide, high-speed roads and SR 99 divide communities and create unsafe conditions for people biking and walking.
- Proximity to Destinations:** Many homes are not within walking distance to shopping, services, or amenities.
- Environment:** Minimal tree coverage and air quality is poor along SR 99 and other large roads.
- Safety:** High number of crashes due to fast moving traffic.
- Multimodal Infrastructure:** Lack of protected/connected bike and ped infrastructure
- Transit:** Some areas along Stockton Blvd have high transit dependency with limited transit access and many transit stops lack shelter and/or benches.

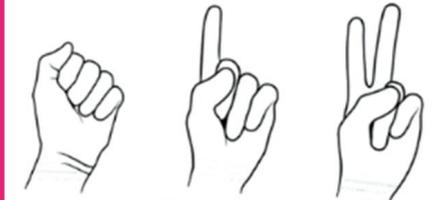

**Land Use Profile**

- Mixed urban/suburban**
- Predominantly single-family homes with some apartments
- Two major commercial centers (Florin Town Center and Southpoint Plaza)

## Ranked Choice Voting

## Fist to Five Voting

**Consensus Blockers**

**Let's Proceed**

No way.      We need to talk about this.      I have reservations.      I'm okay with it.      Sounds good.      Total agreement.

## Consensus Approach

# Mobility Zones' Approach

Bring new voices to the decision-making table

**Partner with CBOs for more effective engagement**

# Community Engagement Partners

Sacramento

Sutter

El Dorado/Placer

Yuba

HEALTH EDUCATION COUNCIL

Health happens together.

Yolo

# Community Engagement

700+ people engaged in-person across the 10 Mobility Zones.

# Next Steps

Where will Mobility Zones go from here?

# Project Overview

**Develop Project Goals and Criteria Development for Mobility Zones**

February - July 2024

**2**

**Identify Mobility Zones & Look at Existing Conditions**

August 2024 - June 2025

**CURRENT PHASE**

**3**

**Prioritize Projects within each Zone**

July 2025 - January 2026

**4**

**Advance Priority Projects**

February - September 2026

# After September 2026

# Thank you!
