Agenda

01 **Welcome & Introductions**

02 **About We Prosper Together**

03 **Business Services Committee**

04 **Panel**

05 **Thank You!**

About Valley Vision

Valley Vision is a regional, nonprofit civic leadership organization based in Sacramento. For 30 years Valley Vision has focused on improving the livability of the Capital Region through research, collaboration, and action.

Valley Vision is driven by a “triple bottom line” approach of co-equally advancing social equity, economic prosperity, and environmental sustainability.

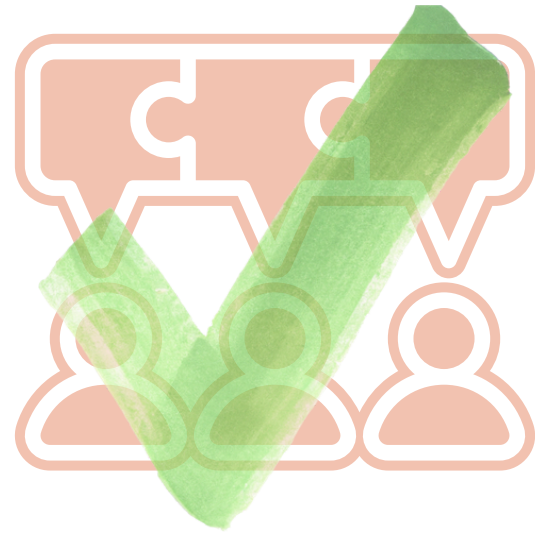

Valley Vision is the regional convener and fiscal agent for We Prosper Together, which is the designated entity guiding the California Jobs First initiative in the Capital region.

We Prosper Together

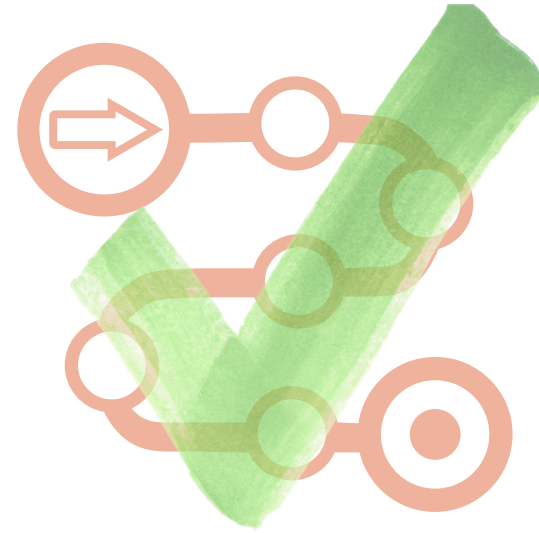

We Prosper Together is bridging together eight counties surrounding California's capital to build a stronger regional economy. Building on the California Jobs First program, we are working to uplift our communities, encourage investment in the region, and create living-wage jobs.

Our Key Goals

Foster a Collaborative

Bridge together existing silos and enable our region to make collective decisions.

Co-design a regional roadmap

Design a shared economic roadmap to a thriving economy that is tailored to the needs of our communities.

Attract investments into our region

Encourage diverse streams of investments that support our region to thrive for years to come.

Create accessible living-wage jobs

Generate more living-wage jobs for all

THE CHANGING LANDSCAPE OF WORK: KEEPING UP WITH EMERGING TECHNOLOGIES

Priority Sector Areas

The Regional Plan identifies **four high-potential tradable sectors** to concentrate future investments and efforts around to create high-quality jobs and accelerate economic progress.

These sectors were prioritized based on extensive community input and factors including job quality and access, job growth potential, talent demand, sustainability, etc.

Biotechnology

Precision Manufacturing

Working Lands

Business Services

Economic Development and Workforce Goals

Increase collaboration across education and workforce systems.

Build connectivity between existing business incubation, capital access, and workforce assets.

Identify gaps and barriers to allow for equitable access to training.

Groundwork Leading to Today's Conversation

- Established neutral convener for Business Services
- Built advisory group across key subsectors
- Grounded work in research and data
- Examined AI exposure across business roles
- Translated findings for workforce systems
- Today's webinar supports workforce partners
